

Specially formulated Nutrient Premix

FEED  
SUPPLEMENT

**GROWMIX-F**

**Mash Feed PREMIX  
with  
Natural Herbs**

### Description

Raw materials do not provide vitamins and minerals in sufficient quantities to meet fish requirements.

A Complete premix is a mixture of amino acids, vitamins, minerals blended in a right proportions along with suitable carriers and anti fungal agents. It ensures the optimum delivery of each micro ingredient into the final feed. Better homogeneity of the premix contributes to improved growth and production performance.

Growmix-F is a mixture of amino acids, vitamins, trace elements, , pigments (which can enhance colour), flavours, macro and micro minerals along with herbal extracts

### Benefits

- ▶ Growmix-F contains important amino acids like DL: Methionine, Isoleucine and Leucine,
