

(100% Soluble & Ionically balanced)

FEED SUPPLEMENT

PURE-MIN

Description

Minerals serve as essential components for enzymes, vitamins, hormones, pigments. Minerals act as co-factor in metabolism, catalysts, and enzyme activators. Shrimp juveniles can absorb or excrete minerals directly from the aquatic environment via gill and body surfaces. Minerals play a key role in the maintenance of static pressure. Minerals serve as structural constituents of soft tissues, play a vital role in the acid base equilibrium of the body and thus regulates the pH of the blood and other body fluids. Pure-Min is Specially formulated to maintain ionic balance, highly soluble and the are readily absorbed by the Larvae.

Benefits

- ▶ Pure-Min maintain optimal water quality parameters such as alkalinity, pH and hardness
- ▶ Pure-Min increases the moulting frequency
- ▶ Pure-Min increases the survival rate
- ▶ Pure-Min helps in better shell formation
- ▶ Pure-Min prevents cramp symptoms
- ▶ Pure-Min helps in increasing the growth rate of shrimp

Composition

- ▶ Pure-Min contains concentrated macro and micro nutrients such as Calcium, Magnesium, Potassium, Sodium, Chlorine, Manganese, Zinc, Phosphorous, Iodine, Copper etc., which are highly soluble in water and Ionically balanced

Dosage

- ▶ **Nursery** : 500 gms to 1 Kg / 1 Lakh seed, once in a day, based on salinity, alkalinity and DOC.
- ▶ **Grow out Ponds**: 5 Kg / acre once in every 10 days (or) as advised by Aquaculture consultant.
