

Biomin+

MINERAL BOOSTER WITH TRIPLE ACTION FORMULA

MINERALS & ENZYMES

GALACTOGOGUES

PROBIOTICS

Biomin+ is a scientifically formulated mineral mixture with minerals, vitamins and enzymes, galactogogues and fortified by probiotics. Biomin+ is designed to enhance the overall health of cattle, improve gut microflora and significantly increase milk production.

ENHANCED MILK

BONE GROWTH

IMMUNITY

GUT HEALTH

REPRODUCTION

The 5 Pillars of Biomin+

A Minerals

Support bone formation, fertility, immune strength, milk yield, enzyme/hormone activity, muscle and nerve function. Key minerals include Calcium, Phosphorus, Magnesium, Zinc, Selenium, Manganese, Copper, Iodine and more

B Vitamins

Vitamin A, D3, E, K, C and B-complex supports vision, immunity, reproduction, bone growth, antioxidant protection, energy, metabolism and stress support.

C Enzymes

Catalyze digestion and metabolism. Improve feed digestibility in high-fiber diets, increase milk yield and growth rates, reduce feed costs and support immune defense.

D Galactogogues

Natural herbs that stimulate prolactin secretion, support mammary tissue development, reduce oxidative stress and improve udder health for maximum lactation.

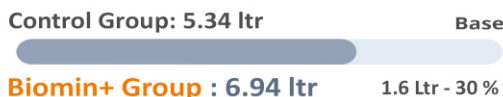

E Probiotics

Live beneficial microorganisms that boost gut health, nutrient absorption, immunity, lower disease incidence and support milk yield and quality.

Clinically Demonstrated Results

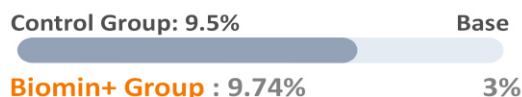

"30-day comparative trials demonstrate significant improvements in milk yield, milk fat %, SNF % and total solids % compared to control groups."

Milk Yield (Ltr/Day) ↑ INCREASED

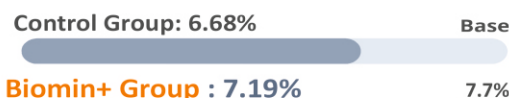

Consistent daily improvement over 30 days

SNF % ↑ HIGHER

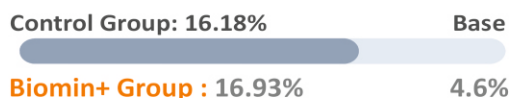

Better Solid-Not-Fat composition

Milk Fat % ↑ IMPROVED

Measurable fat increase observed

Total Solids % ↑ ELEVATED

Overall milk quality enhancement

Complete Composition

MACRO MINERALS	MICRO MINERALS	VITAMINS & ENZYMES	GALACTOGOGUES
Calcium : 25%	Copper : 1%	Vit A : 12,00,000 IU	Leptadenia : 5%
Phosphorus : 12.5%	Zinc : 3%	Vit D3 : 5,00,000 IU	Asparagus : 5%
Magnesium : 5%	Manganese : 2%	Vit E : 500 mg	Trigonella : 5%
	Iodine : 0.02%	Nicotinamide : 2,000 mg	+
	Cobalt : 0.01%		Probiotics : 4 Strains
	Selenium : 0.01%		(1B CFU/g)
	Chromium : 0.01%		

INDICATIONS:

- ✓ For better health & growth
- ✓ For improved milk production
- ✓ For good reproductive performance

DOSAGE FEEDING SCHEDULE

Cows & Buffaloes:

For maintenance & growth : 30g daily orally.
For improved production & good reproductive performance : 50g daily orally.

Calves / Sheep / Goat / Pig : 25-30g daily orally.

Horses : 50g daily orally
(or) 1-2kg to be mixed with 100kg of feed.

PACKING
